

CAUTION !! All new procedures and processes should be checked in the 'Test' environment before being applied to the 'Live' business system.

UPDATE CUSTOMER PRICES FROM ASCII FILE – Ver 2

Customer Prices can be updated by importing from a .csv file generated via a spreadsheet. The File Format for this procedure is shown below.

1. Utility Name

The Utility is located by the menu path

Sales Order Processing, Utilities, Parameters, Customer Details, Update Customer Prices from ASCII File

2. Program

The program that is run by the Customer Details menu option is

SMS-CUSTOMERS

3. ASCII File

The ASCII file name and import path is

C:\CUSTPRI.CSV

4. Import Action

Importing the above file will create a new Customer/Item/Product Group combination or overwrite an existing combination.

5. File Format
